CAREER OBJECTIVE

Committed to solving problems with the ability to learn new Skills, to find opportunities for participation, and to use my extensive knowledge in Mechatronics engineering as an entry-level engineer to generate the progressive growth to the company. Effective able to work under pressure with time management skills.

Skill Highlights

- Auto CAD
- Solid Works
- C, C++
- Circuit Wizard
- Pneumatic
- PLC
- Proteus
- Robotic System
- CAD SIMU

Experience

Mechatronics and Robotics Department Teacher

- 12/2020 to 09/2021

Prachuap Khiri khan Technical College, Prachuap Khiri khan

- Teach basic electrical subjects.
- Teach robot control and electromechanical control.
- Teach use of electronic devices and circuits.
- Join the regional mechatronics and robotics skills competition.

Automation Internship - 06/2019 to 09/2019

Cal-Comp Electronic (Thailand) Public Company Limited,
Phetchaburi

- Write a program PLC to install the conveyor belt.
- Installing a robotic arm in the production line
